Fire Department Extinguishes Blazes

Three grass fires, which firemen said were set, were extinguished by the Redwood City Fire Dept. about 7 o'clock Tuesday.

Fire Chief Mark Ryan said two small fires were extinguished in grass between the sidewalk and curb at Brewster and Arguello Sts. and another at Arguello and Alden, a block away. The fires caused no damage.

The department sent one truck to a rubbish fire at Arlington Rd. near Coply Ave. at 1:13 a.m. Wednesday and two trucks to a grass fire at 10:46 Wednesday at Poplar and Addison Sts. Both fires were put out in a few minutes and caused no damage, Ryan said.

Bicycle Accident Results in Damage Suit

A $10,000 damage suit was on file today in superior court in Redwood City as the result of one of the plaintiffs having been struck by a bicycle.

Austin Wade and his wife, Esther, of Redwood City, charged that on July 6 Mrs. Wade received cuts, contusions and abrasions and a fracture of the right knee when she was struck by a bicycle operated by Fred Cliff of Redwood City. The accident occurred on Broadway.

The Wades charged negligence.

Named in the suit besides Fred Cliff are his parents, Mr. and Mrs. Louis Cliff, who, the Wades state, had sent their son on an errand.

CAMPAIGN: Hal Honore' Clarifies Two Drives

Hal Honore', chairman of publicity for National War Fund and Community Chest drive here this year, today pointed out that the National War Fund and the San Mateo County War Chest were the same thing, and that citizens of the community will therefore not be asked to contribute to separate funds.

The campaign for the National War Fund, or War Chest, and the Community Chest will be held jointly.

Agencies benefiting from the Community Chest funds include the Boy Scouts, Girl Scouts, YMCA, Preschool Clinic, San Mateo Preventorium and the Salvation Army.

The 16 War Fund recipients will be the USO, United Seamen's Service, War Prisoners Aid, Russian War Relief, United China Relief, British War Relief Society, Greek War Relief Assn., Polish War Relief, United Yugoslav Relief Fund, French Relief Fund, Belgian War Relief Society, United Czechoslovak Relief, Queen Wilhelmina Fund, Norwegian Relief, Friends of Luxembourg and the U. S. Committee for the Care of European Children.

Meanwhile, the War Chest opened a 15-day slogan contest with a $25 war bond being offered to the person submitting the chosen 10-word slogan for the campaign which gets under way Oct. 18.

All entries must be postmarked not later than Sept. 15.

So that persons will understand what to write about, the San Mateo County War Chest leaders offer the following factual matter about the War Chest activities:

The War Chest's drive for funds is a combined effort to benefit certain San Mateo County relief agencies and organizations which we have always been supporting by public subscription.

The drive will also benefit war relief agencies such as the USO; the legion of "barbed-wire" prisoners who are held by the enemy in internment camps; starving Chinese who have bled and died for a common cause; Russian allies who are in need of medical supplies; merchant seamen who are in convalescent homes because they braved U-boat waters to bring supplies and men to the corners of the earth where Uncle Sam and his Allies most needed them, and the other war relief bodies.

All slogan entries should be mailed to San Mateo County War Chest Inc., 1211 Burlingame Ave., Burlingame.

Mrs. Gregory Asks Administration Letters

Mrs. Della C. Gregory, 935 Durlston Rd., Redwood City, today petitioned the superior court at Redwood City for special letters of administration in the estate of her husband, Dr. Frank S. Gregory, who died Aug. 21 following a heart attack.

Value of the estate is unknown. Dr. Gregory left a will dated in 1927 but Mrs. Gregory stated she believes there is a subsequent will, for which she is searching.

Dr. Gregory was a physician in this community for 28 years.

Influx of Students May Hinder Schools

Belief that San Mateo County schools, particularly in the South San Francisco district, may operate under a hardship this year because of the influx of children of war workers was expressed today by County school Supt. Pansy J. Abbott.

Miss Abbott said she did not know whether schools in the Redwood City district will be affected or not, declaring it would depend on how many school students are brought here by the new Dibble Hospital in Menlo Park.

Miss Abbott explained that the county receives funds from the state on the basis of attendance for the previous year, and if there is a large increase in enrollments it will work a hardship.

South San Francisco schools opened today.

San Mateo County has been apportioned a total of $1,323,088 by the State Department of Education, it was announced today in Sacramento. Of this $755,457 is for elementary schools, $491,111 for high schools and $76,520 for the junior college.

Miss Abbott said the apportionment will be paid in 10 installments, starting in September. She will notify each school district the amount it has been apportioned.

Money from the state is based on daily attendance, while money from the home district is based on property valuation, Miss Abbott said. School expenditures for the next year will be more than $4,000,000, she declared.

FIRE NEAR CLUBHOUSE

Woodside Fire Dept. Tuesday afternoon extinguished a grass fire at Menlo Country Club. There was no damage and the club building was not threatened, firemen reported today.

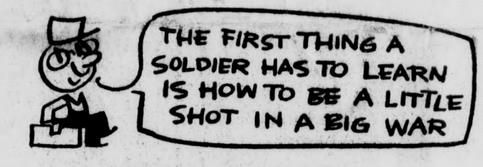
J-M Smokestack
By Jim Asbestos



HENRY FORD SAID:

"Nothing is particularly hard if you divide it into small jobs."

This war has been divided into 130,000,000 small jobs—including yours.

"I have to realize I'm pounding Hitler"

AIR-CONDITIONED HOME AND PLENTY OF AIR

Lt. P. E. Redding, USNR, former manager of J-M's Eastern Division Transportation Department, wrote from Atka in the Aleutians, near Alaska:

"Our home is completely air conditioned, but we are modifying the installation to some extent by nailing patches over the air-leaks.

"Of course, as we find time to pile a bit more good mud around the joints it will really be quite comfortable. We have some quarrelsome neighbors, but other than that all is serene."

BETTER POST-WAR HOMES

"My own conviction is that the tendency in the post-war world is going to be toward homes that are more livable, rather than just cheaper. I think that women of America are going to want color, beauty and comfort, air-conditioning, gadgets, ideas."

—LEWIS H. BROWN, President of J-M

"WE MUST BEWARE"—CHURCHILL

"We must beware of trying to build a society in which nobody counts for anything except an official, a society where enterprise gains no reward, and thrift no privileges.

—WINSTON CHURCHILL.

LITTLE JOURNEYS TO J-M PLANTS

Today, we'll visit J-M's asbestos mines in Canada and Arizona.

You can't wage a war without asbestos.

Asbestos is absolutely necessary in making weapons of war and in thousands of plants that make 'em.

Asbestos doesn't grow on trees—it is mined out of the earth. And the two main J-M asbestos mines are in Canada and Arizona. The Quebec mine is the largest in the world. It produced 218,000 tons in 1942, and the special grades of fibre produced in Arizona have been essential for insulation and protection of electrical equipment and other war-time uses.

Next time, we'll visit other of J-M's 17 plants and mines.

Old Age Cases Show Increase

Old age assistance rolls in San Mateo County were upped by 18 new cases during July, California Taxpayers' Assn.'s study of the first month of increased and more liberal old age aid laws in California Counties shows.

The number of people receiving aged aid in the county went from 1177 in June to 1184 in July, a net increase in the roll of seven during July. Withdrawals from the rolls account for the difference between the number of new cases added and the net increase, the association stated.

At the end of July there were 86 applications for old age aid pending in the county. At the close of April, there were 56 cases pending, with the number of applications trending upward for the months since April.

Average aid per needy person jumped from $36.52 for June to $46.33 for July, the effective date for the increased aid being July 1, the association stated. Total aid granted in the county from county, state and federal funds increased from $42,986 in June to $54,852 in July.

SERVICE PARTY: Jaycees Term Barbecue Successful

Members of the Redwood City Junior Chamber of Commerce today termed "eminently successful" a service party at the Prentiss Cobb Hale Estate in Woodside Sunday at which approximately 400 servicemen and hostesses were entertained.

The barbecue and picnic was sponsored jointly by the Redwood City club and the San Francisco United Service Organizations.

Members of all branches of the service were treated to an afternoon of sports plus a steak barbecue. Each of the hostesses was asked by the USO to pay $1.50 for her part in the program. The money helped defray expenses of food, which was provided by the USO.

The junior chamber carried out its part of the program, including transportation and entertainment, as a community service with the club bearing all expenses.

A caravan of 6 busses and 12 private automobiles left Redwood City with police escort at 10:30 a.m. and returned to the Woodside estate at 1:45 p.m. with the servicemen and hostesses. The caravan returned the group to San Francisco in the evening.

Authorization by the Office of Defense Transportation and the navy was obtained to use the busses.

Members of the Redwood City committee in charge were Jack Dunlap, William Morrissey, Sanford Ratliffe, Floyd McCue and John Ryan. Nearly every member of the club took part in the activity, providing private cars and supervising entertainment, Dunlap said.

Akron, Ohio, recently held a "Give-a-Gun" campaign to aid the scrap metal drive, fixing a quota of 12½ pounds per person —the amount of metal in a .30 caliber machine gun. A parade featured two 10-ton steam rollers, a seven-ton concrete mixer, several hearses.

Will Probate Petitions Filed in Superior Court

Petitions for probate of will in two estates valued in excess of $10,000 each were filed in superior court at Redwood City this week.

Charles G. Lambert, Redwood City real estate dealer and former mayor here who died Aug. 20 in Palo Alto Hospital, left his entire estate, valued at "more than $10,000," to his wife, Lillie Belle Lambert, 1212 Whipple Rd., his will reveals. His last will was dated Apr. 20, 1926.

Mallory E. Enos of 30 Catalpa Dr., Menlo Park, who died in Palo Alto Hospital last Thursday, also left an estate valued in excess of $10,000, the petition for probate of will states. His will, dated Nov. 13, 1942, names his wife, Florence Irene Enos, and daughter, Ruth W. Enos of San Francisco, as executrices. Helen A. Enos of San Francisco also is a legatee.

Enos was a member of the firm of Enos-Mosher, a San Francisco produce company.

Laborless Labor Day

How about a laborless Labor Day for you, the Homemaker? Truly you deserve relaxation along with the rest of the family! And it can be done, you know.

To make sure the day will be free from cooking, plan your menus for the entire week end so that practically all the meals can be cooked Saturday. Holiday meals needn't follow the regular schedule. With breakfast later in the morning and heartier, too, and a substantial dinner in the offing, lunch can be merely a snack or left out entirely. Of course dinner should be plentiful enough to take care of robust appetites, so we recommend the following:

LABOR DAY DINNER

Old-fashioned Baked Beans
Hot Spiced Beets
Cabbage, Carrot and Orange Slaw
Whole Wheat or Boston Brown Bread
Butter or Margarine
Applesauce Shortcake
Beverage

Ahead-of-time cooking—The beans, beets and shortcake can all be prepared ahead of time so that most of the work is done. Just reheat the beans for an hour before serving time. The beets can be cooked for Saturday with enough left over to spice and reheat for Monday. The shortcake and applesauce can easily be prepared earlier and united at the last moment.

For that holiday air—If it is warm enough, carry the dinner outdoors and enjoy it picnic style. If the weather discourages this, then serve it buffet style with everyone serving himself. What a work-saver this method is and everyone enjoys that kind of dinner.

Baked beans can be different—Practically everyone has her special way of baking beans. My favorite method is to put an onion in the bottom of the bean pot, then heap in the boiled beans, add sweetening, seasonings and enough bean liquor for moisture and bake. The onion flavor permeates each and every bean in a most delicious manner. If you want to be different, try baking other beans such as limas, pink or pinto beans by your favorite method. While they are in season, chopped fresh tomatoes can be used instead of tomato sauce, too.

Early bird shoppers—If you want to get a running start on the relaxation schedule, then do your shopping early with your complete menus in mind and overlapping each other. For instance, a meat loaf could be served hot Saturday and cold Sunday. Vegetables for one meal can go into the salad the next day, and so on throughout the week end.

JUST DESSERTS—If you want to finish dinner off in a triumphant manner, then look to Julia Lee Wright's article in this week's Family Circle Magazine. It's all about sugar and shortening saving desserts.

WAR CHEST: Slogan Contest To Open Annual Campaign

A war bond for ten little words!

The San Mateo County War Chest organization will see to it that you get the war bond—providing you can write a snappy but expressive slogan of ten words for the war chest drive for funds which starts Oct. 18 and continues thereafter for two weeks.

The contest is open to everyone, young or old, in San Mateo County. It starts Sept. 1 and closes Sept. 15, and all slogans which are mailed to the war chest headquarters, 1211 Burlingame Ave., Burlingame, up to and including the latter date, will be received gratefully and given special consideration by a special committee of judges.

The winner of the contest will receive a $25 war bond.

Merchants throughout the county will carry entry blanks for the contest and Peninsula newspapers will publish the slogan entry coupons, too.

So that they may better acquaint the prospective "sloganeers" with what the San Mateo County War Chest and its drive means, organization leaders headed by Chairman E. H. Cosgriff offered the following educational matter:

1. The local war chest is a suffering somewhere in the friendless enemy prison camps; to aid starving Greece, to help gallant Russia; to aid the scorched earth of China and her part of the California War Chest and has been incorporated to raise funds for the National War Fund as well as San Mateo County local agencies.

At least six local and worthy community agencies will benefit from contributions to the war chest and the names of these local organizations are to be made public shortly.

2. Aside from benefitting our own community agencies, our contributions to the war chest will go toward such war philanthropies as the USO, our American prisoners of war who are homeless refugees; to aid convalescent centers for our merchant seamen who brave death through the U-boat lanes with ammunition and men so that peace once again shall visit this world.

"The benefits for humanity that the war chest contributions will accomplish are many fold," said Chairman Cosgriff.

"We need a war chest campaign slogan to inspire us in our efforts. We know a good one will come out of this contest."

New Prices Effective Here Today

San Francisco price ceilings on 1400 essential foods were extended to Redwood City and the Peninsula this week as far south as Palo Alto, where San Jose price ceilings prevail. The Office of Price Administration's market basket price list appears in full on pages 4 and 5 of today's Tribune.

While many grocers still awaited their official OPA orders, most of them checked their prices against lists published in newspapers and anticipated little readjustment in the general price levels.

Other stores still waited official OPA orders. It was explained yesterday that the War Price and Ration Board at Redwood City, swamped with gasoline ration work, had failed to mail the official price lists to South County retailers. The lists were placed in the mail yesterday.

One grocer protested the classification of stores according to business volume as "discrimination." By allowing higher ceilings to smaller stores, the OPA has branded them as high priced establishments, he claimed.

OPA pointed out that the prices are maximums beyond which the retailer may not go. Any store may sell below the fixed ceilings.

C. of C. Forms Service Group

To work on housing of guests and other problems that might arise as a result of the establishment of the Dibble General Hospital on Middlefield Rd., a South County Service Committee is being formed, E. W. (Ned) Butler, chamber of commerce manager, said today.

The committee will include members from the Red Cross, Civilian Defense, USO and the Chamber of Commerce, and other service organizations.

Part of the program of the group includes listing of rooms, apartments, houses and boarding houses for temporary guests visiting the hospital. The committee, Butler said, hopes to expand its personnel and activities as the hospital progresses.

War Council Lists Blackout Changes

In the future during blackouts, emergency vehicles such as police and fire cars or ambulances will operate with lights on. Any blackout lights, with which such emergency cars were equipped at the outbreak of the war, are no longer to be used.

These are two of the new rules governing use of automobiles which go into effect tomorrow, according to Mayor Floyd D. Granger, commander of Redwood City War Council.

After that day, the "E" (emergency) stickers and other means of identification for emergency cars issued by local defense agencies will not be valid.

Replacing them are new permits issued by Homer Buckley, state director of civilian protection. In addition, auxiliary emergency vehicles (privately owned cars) must be equipped with an approved headlight mask properly installed on the right front headlight. Permits and masks were sent out over the week end to local emergency car owners whose names were approved by the state agency upon recommendation of the war council, Granger said.

The headlight mask is to be mounted during red alerts only. It must be used whether the air raid alarm is during the day or during the night. In addition, if the alarm is at night, the ordinary headlights, tail light and license plate lights must be lighted, according to instructions sent the local war council by Buckley.

Military vehicles may be operated without restrictions of any kind, Buckley said. "Statutory authorized emergency venicles," such as police or fire cars or ambulances, "may proceed with full headlights, but must display an identifying red light in front" night or day. No special CD permit is necessary for operation of this type of machine.

Instructions regarding other vehicles are as follows:

Red Cross vehicle with special red lights must be equipped with a headlight mask if permitted to move during an air raid alarm period. The Red Cross light is to be used only "when responding to emergency calls" or "during times of major disaster." An air raid alert is not an emergency or major disaster.

Motorcycle — During an air raid alarm at night, must have, in addition to its ordinary driving light, a low-powered auxiliary lamp covered with approved headlight mask. All lamps must be lighted. During day alarm, may be operated if equipped with headlight mask or if the operator is wearing an approved armband.

Bicycle—Need not be equipped with a mask, but operator must wear approved armband. At night, bicycle must have legally required lighted lamp.

Military personnel—May operate a private automobile during air raid alarms only if the vehicle is equipped with approved headlight mask and operator has a permit issued by state director of civilian protection.

EYE EXERCISE

Even the strongest eyes are likely to get tired if you're an avid reader. You can relieve them by doing this little exercise: Pick up a pencil, hold it in front of your face and gradually extend it at arm's length. All the while keep your eyes focussed on the pencil. Ten or twelve times of this will help prevent eye fatigue and strain.

The two largest planets, Jupiter and Saturn, each have nine satellites.

Blood Bank Increases Donations

The San Mateo County Blood Bank is contributing increasing amounts of fresh blood plasma to the United States Navy hospitals at Treasure Island and Oak Knoll, officials of the bank reported today.

The blood and plasma is called for regularly twice weekly, they said. During a period of three months, 225 units of frozen plasma have been sent to Oak Knoll, and 100 units to Treasure Island. Approximately 100 pints of fresh blood have been given to Oak Knoll during the past three weeks.

The blood bank continues to replenish frozen plasma kept under refrigeration at both places. The contributions are over and above the requirements of civilian needs.

Response to both military and civilian needs has been made possible by generosity of individuals in all parts of the county who are donating blood to the bank, officials pointed out. To date the bank has had more than 5000 donors.

3-Year-Old Hurt In Fall from Car

Three-year-old Peter Fultz is in the Palo Alto Hospital today recovering from head injuries incurred when he fell out of a moving automobile yesterday afternoon on Woodside Rd.

Police here said the boy and his mother, Mrs. Floyd Fultz, 2377 Menalto St., East Palo Alto, were walking and were given a ride by Mrs. Violet Underwood, 1719 Selby Ln.

The boy, in the back seat, opened the door accidentally after the car was under way and fell out.

He was taken to the office of a Redwood City physician and later transferred to the Palo Atlo Hospital.

The hospital today reported his condition "good."

Seventy-five passenger and freight trains are needed to move one U. S. armored division.

BUY BONDS AND HELP BUILD BOMBERS TOO!

Two Peninsulas

On yours . . . *home, safety and peace . . . and easy work at high pay.*

On that other . . . danger and deadly work, paid for in the coinage of war.

Toward that other peninsula an army of American boys are battling their way. They'll soon be swarming over it, drenching it with their blood.

Some of those boys came from YOUR peninsula. Is there no special bond between you and them? Can you just buy war stamps and call it quits? Can you go right on in your safe, comfortable, non-essential job . . . *or in no job at all* . . . and get no closer to those boys than your radio, to learn where they fight and die?

Can you go on boastful of their victories yet deaf to their cry: "Give us more *planes*!" When right here on YOUR peninsula is a chance not merely to help pay for them with bonds, *but to help build planes yourself!*

This is not just a private industry inviting you to a good job at high pay. It is the Air Force of the United States Army calling you. It is the pilots in the sky . . . the doughboys on the battlefield . . . the sailors and marines across far-flung seas. It is your country and its fighting men asking your help.

Hammond Aircraft is assisting to build Douglas bombers. It has a quota to meet . . . a heavy, vital quota that must be filled. Yet we cannot meet that quota unless we get more workers. If you are not working at all, or are engaged in non-essential employment, this is the urgent request to you:

MEN AND WOMEN

That you start a training course at once . . . not one that you pay for but one that pays you . . . and learn the simple techniques of riveting and assembly. Then, when you have finished the course, that you take a job at good pay with Hammond Aircraft.

The training school is easily accessible . . . the Peninsula Defense Training Center on Middlefield Road, Palo Alto. It is sponsored by the United States government and administered by the California Department of Education, through the Palo Alto School District.

You get practical instruction under experts. Almost from the first day you begin working on actual airplane parts. When you are qualified you are switched to a permanent job at Hammond Aircraft, either in Plant No. 1, adjoining Mills Field, or Plant No. 2, at 2575 Bayshore Blvd., just within the limits of San Francisco.

The need is urgent, vital. Won't you do something about it? In effect, our boys on the battlefront have left a phone call for you to answer. *DElaware 2071.* That's the Hammond Aircraft number.

Call it weekdays from 8:30 a.m. to 5 p.m. Sundays 8 a.m. to 4 p.m. Or, write us direct saying you are interested. Or, drop in for a friendly chat.

You work an 8-hour shift, with time and a half for all time over 40 hours weekly. It is light, clean, indoor work, unusually pleasant for women. Four special reasons favor this war job over others for residents of the peninsula and adjacent districts of San Francisco.

1. It is close to your home, easing the problem of transportation.
2. It is in a home-owned, peninsula plant that will continue to provide payrolls for the peninsula after the war.
3. It is the most absorbing phase of war work . . . making bombers . . . speeding on to victory our heroic battlers of the air.
4. It is a start in aviation, the industry with the greatest postwar future of them all.

If more convenient, call at the UNITED STATES EMPLOYMENT OFFICE.
The address is County Courthouse, Redwood City
Whatever you do, phone, call or write TODAY.

R.C Area May Have More Houses

Robert L. Rumsey of the San Francisco office of the National Housing Authority said today he would recommend material be allocated for construction of additional Title 6 houses in Redwood City, Menlo Park and North Palo Alto.

Rumsey, reporting this morning to E. W. (Ned) Butler, chamber of commerce manager, on the results of his conferences with Col. William C. Allen, commandant of the hospital, said the allocations would be recommended because of the general housing shortage and the need of the hospital to house civilian employes.

Construction of the houses would begin within a month, he said.

He would not say how many would be built.

The meetings between Rumsey and army officials came as a result of chamber of commerce efforts, Butler said.

Although the new houses would help the situation here somewhat, Rumsey said the general housing shortage would not be greatly reduced.

The hospital expects 300 to 400 civilian employes. Army personnel will be housed on the grounds and the hospital will have no provision for wives and families of the personnel. Efforts will be made to discourge them from coming to the community, Butler said.

No definite location was given for the new houses.

Butler said the total price of a Title 6 house and lot is limited. Price of property, therefore, has to be taken into account in deciding the location. Rumsey said contractors here may buy lots and apply for priorities now. The one restriction placed on location is that it must be within walking distance of within "easy accessibility" to the hospital.

Laurie Duncan, Redwood City building inspector, said this morning 10 new additional building permits had been issued to John McCarthy, building contractor, for houses to be built on Manzanita and Laurel Sts.

Eighteen new homes are in prospect in Camino Villa. H. H. Weiner, contractor, said he expects to finish construction on them in December.

The homes, Monterey and Cape Cod colonial style will be three-bedroom houses.

The total price on a Title 6 three-bedroom home and lot is $5500. For a two-bedroom house, the price is $5000.

PUBLIC NOTICE

Walter Slack, Atty.
CERTIFICATE OF PARTNERSHIP TRANSACTING BUSINESS UNDER FICTITIOUS NAME—WIZE & NOLAN MACHINE COMPANY.
No. 1105

We, the undersigned, do hereby certify that we are partners transacting business in the State of California under the fictitious name and style of WIZE & NOLAN MACHINE COMPANY; that the principal place of business of said partnership is in the City of Belmont, County of San Mateo, said State; that the names in full of all the members of said partnership and the places of residence of said members are respectively as follows: G. E. WIZE, 320 Ashton Avenue, Millbrae, California; C. C. NOLAN, 1984 St. Francis Way, San Carlos, California.

IN WITNESS WHEREOF, we have hereunto set our hands this 26th day of August, 1943.

G. E. WIZE
C. C. NOLAN

STATE OF CALIFORNIA, City and County of San Francisco } ss.

On this 26th day of August, in the year one thousand nine hundred and forty-three, before me, CATHERINE E. KEITH, a Notary Public in and for the City and County of San Francisco, residing therein, duly commissioned and sworn, personally appeared G. E. WIZE and C. C. NOLAN, known to me to be the persons described in and whose names are subscribed to the within instrument, and they duly acknowledged to me that they executed the same.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed my Official Seal, at my office in the City and County of San Francisco, State of California.

CATHERINE E. KEITH,
Notary Public in and for the City and County of San Francisco, State of California.

My commission expires Dec. 15, 1946.
(SEAL)
WALTER SLACK,
Attorney at Law,
433 California Street,
San Francisco, Calif.

(Endorsed) Filed in the Office of the County Clerk of San Mateo County, Calif., Aug. 30, 1943.
W. H. AUGUSTUS,
County Clerk.
By JUNE M. LYNCH,
Deputy Clerk.
Sept. 3, 10, 17, 24; Oct. 1, 1943

Mrs. Kalenborn Outlines Drive

SAN CARLOS—Explanation of the organization and function of the War Chest campaign was given this week by Mrs. A. S. Kalenborn, chairman, at a meeting with the representatives from clubs and organizations which are to help with the collecting. The War Chest campaign is to help the local organizations of the Girl Scouts, Boy Scouts and YMCA and all war relief agencies.

A rally for the workers in the campaign is to be held sometime before the beginning of the drive on Oct. 18 at which time the duties of the volunteers will be explained and a program will be presented. Mrs. H. V. Brown is chairman of the rally and assisting her will be Franklin Duxbury and Mrs. M. M. Bell.

It was also decided to ask Louis Dematteis, chairman of the speakers bureau for the War Chest committee, to send a speaker to the first autumn meetings of the various organizations taking part.

Representing the clubs which are to be active at Mrs. Kalenborn's home last night were Mrs. E. R. Burton, Girl Scouts; Mrs. M. Franks and Mrs. J. A. McGee, American Legion Auxiliary (Mrs. McGee was also representing the White Oaks Improvement Club); Mrs. Lester West, PTA; Mrs. H. V. Brown, Junior Matrons; Commander Albert Knoy, American Legion; Edgar Shockley and S. R. Kirkes, Cubs; H. A. Glaves, Boy Scouts; M. Franklin Duxbury, Masonic Club; Mrs. Philip Cotton, Manor Improvement Club; A. L. Boucher, Bank of America; A. H. Sagehorn, YMCA.

Not present at last night's meeting, but who will take an active part in the campaign were W. H. Johnson, Carlosians and Joseph Nash, Holy Name Society. Mrs. M. M. Bell is secretary.

Coffee trees take seven years to begin producing.

250 Masons Attend Anniversary Party

More than 250 Masons gathered in Redwood City Saturday to fete the 30th anniversary of Redwood City Lodge 168. Roy W. Cloud, past master of the lodge and former county superintendent of schools, traced the history of the organization. Leon O. Whitsell, past grand master, spoke of conditions in California at the time the Redwood City lodge was founded.

Henry W. Potts, 1943 master, staged a war bond and stamp sale in connection with the celebration which netted in excess of $3000. Lawrence A. Heiner, past master, arranged the program.

Reprsentatives of all Peninsula Masonic lodges presented greetings.

Several airplanes have made non-stop flights between Africa and the United States during the present war.

Let's Grow It!

By Rolly Langley

In the seed catalogue the other day I noticed a variety of corn named Golden Gem, which I'm going to try next year. It's described as a short plant frequently bearing two ears each, with eight rows of kernels, rather small. Kernels are a deep yellow color. But what makes this Golden Gem a tempting variety is its quick maturity—67 days.

Mrs. Paschall Peterson of 3390 Quintara Blvd. writes, "When I went to school we were told that all animals were composed of water and minerals. So when I read several articles on Equador, which the claim was made that certain inhabitants of that country enjoyed unusually fine health because of the mineral content of the soil, the claim struck me as quite reasonable."

The fact is now generally accepted even among foreigners usually on the conservative side, that if a soil is fertile the plants will be of better quality. The way they put it, "The vegetabes ship better." Now, what they mean is that they have a greater supply of minerals—more solids in proportion to the water.

This is particularly noticeable with celery, the hungriest vegetable of them all. I've seen celery grown on a patch fertilized at the rate of 800-900 pounds of commercial fertilizer per acre. In those days, fish meal was also available, and it was a favorite with celery growers. (Of course, if we had fish meal these days, we'd give it to the chickens and cows who are crying for protein feeds. Needing is a better word than crying here.)

When the celery was cut, the heads after trimming were sometimes 5-6 inches in diameter. They were the jumbos of the Utah type. These magnificent heads were rich in minerals, and they shipped to distance markets with little wilting.

On the same type of land, in an adjoining field, I've seen check plots where little fertilizer was applied. Growers seldom left more than a row this way, because they know from experience what the results would be. But occasionaly they would try to get by using a fertilizer containing just one element—such as nitrogen, phosphates or potash.

They found that by using nitrogen only from start to finish, the celery would be just as tall, but the bunches might be only three to four inches through after trimming. And they found that this celery would almost wilt at the sight of a cutting knift. This was because the celery lacked "quality."

It lacked substance, minerals, solids. However, growers found that by using a balanced fertilizer in the early stages, celery could be lengthened out without loss of quality by using a nitrogen fertilizer after the wraps were on.

I like the way R. A. Hemanick of Watsonville puts it in his little book, "All Roads Lead to the Soil." He says nitrogen builds the framework of the plant and phosphates and potash fill in the substance. That's an over-simplification, but it conveys the idea.

Don't be afraid to use a balanced fertilizer in your garden. The victory garden formula now is stronger stuff than last Spring.

Flashes of Life

INTUITION—CHEAP

TOPEKA, Kas. (AP) — Juvenile Judge Roy McCue received a letter from one of his wards asking for help. She said she was going to enter junior college and needed $6 for intuition fees.

★ ★ ★

MECHANIZED ERA

LOS ANGELES (AP) — William Whorley, 25, wrote his mother from Antafogasta, Chile, that he was abandoning his horseback journey back to the United States. He left Buenos Aires last January.

"He said he was afraid he couldn't get home before the war was over," Mrs. Zola Whorley reported, "so he's taking the boat.

"He wants to enlist."

★ ★ ★

SHELTERED

KISKA, Alaska (AP) — Many American campaign hats from World War I were saved for a rainy day.

Troops at watersoaked Alaska and Aleutian posts now are wearing them and liking it.

They make excellent rain hats.

Questions-Answers

Q. Name a fish named after a well-known bird.

A. The sea-robin, red in color, and with spiny wing-like fins, which give the fish its name.

★ ★ ★

Q. Who discovered the Hawaiian Islands, and what was the fate of the discoverer?

A. They were discovered in 1778 by Captain Cook, and on his second visit there, a year later, he was killed by natives.

★ ★ ★

Q. What is the characteristic odor of butyric acid?

A. The chemical gives off the aroma of rancid butter.

Matrons To Aid Bond Drive

Seventy-five block matrons of Redwood City Office of Civilian Defense, at a meeting Monday approved unanimously the suggestion that block matrons cooperate in raising the town's proportion of the Third War Loan of 15 billion dollars.

Participation of civilian defense groups in the drive has been urged by James M. Landis, national OCD director and Governor Warren of California.

California's quota in the drive is something over $400,000,000. Martin Flynn, chairman of the Redwood City War Finance Committee, who was present at the meeting, said the quota here had not been announced. He requested the matrons to co-operate by forming war bond committees through their organization to handle the house to house solicitation.

Flynn pointed out that cooperation of the block matrons in the drive is not considered to fall within the meaning of the restriction in effect in some councils against solicitation of funds.

Mrs. A. S. Kalenborn, chairman of the block matrons, appointed Mrs. Roy Peterson as chairman of a committee to develop a working plan for the drive. Members appointed were Mrs. Elsie Bloomquist, Mrs. K. R. Jenkins, Mrs. Peter Mensoian, Mrs. Alfreda Bell and Mrs. W. G. Frost.

Louis Dematteis, public relations chairman of the war council requested assistance of the matrons in promoting Civilian Defense Week, set for Sept. 27-Oct. 3.

The importance of aiding in the war service phase of civilian defense was emphasized by Chief Air Raid Warden W. H. (Bud) Thorpe.

Several U. S. aircraft companies are now employing more workers than the entire industry did three years ago.

Sheep have been known to exist for weeks while buried in snowdrifts.

Civil Action To Test Rent Control

First San Mateo County superior court test of Office of Price Administration rent control was forecast here today when Harold Anderson, Redwood City attorney, filed suit on behalf of Mrs. Beulah Garcia against F. G. Musso, William T. Chapple and A. W. Paterson for recovery of allegedly excessive rents and punitive damages.

Filing under the Emergency Price Control Act, ruled unconstitutional as a rent control in a Georgia federal court yesterday, Mrs. Garcia, Redwood City resident, seeks recovery of $30 allegedly paid in excess of the rent ceiling; $1800 damages, $600 from each of the three defendants, and $250 attorney's fees.

Anderson said Mrs. Garcia rented premises owned by Musso, Redwood City druggist, at 43 Clinton St., July 1, 1942, and vacated them June 30, 1943. The complaint charges that each month for 12 months she paid $2.50 over the rent ceiling. She asks $50 damages for each offense, one offense each month, from each defendant. Chapple was the real estate broker and Paterson the agent.

Anderson said the penalty is either triple damages or $50 for each violation.

In San Francisco July 12 Federal Judge Michael F. Roche issued an injunction ordering Chapple, Paterson and Musso to obey OPA rental ceilings in connection with the Garcia case. Musso did not contest the action, pointing out that he purchased the property in July, 1942 and continued the rents then in effect.

Rent ceilings were fixed at the levels of Mar. 1, 1942.

Mrs. Garcia's complaint states that none of the excess rental money was returned.

Federal Judge Bascom S. Deaver, sitting in Macon, Ga., yesterday, ruled that the Emergency Price Control Act was invalid in its application to rent control.

The action was one similar to that initiated in Redwood City today. John W. Payne sought damages from J. H. Griffin on grounds that the latter had charged above-ceiling rent. OPA announced it would appeal the judge's decision, and that meanwhile rent control would be enforced. It was expected that a Supreme Court ruling would be required to determine the question of constitutionality.

Elementary Schools Open Sept. 13

Spinas Lists Regulations

Redwood City grammar schools will open Sept. 13 and registration for kindergarten students and students who were not in attendance at Redwood City schools last year will be held on that day, Andrew Spinas, superintendent of schools, announced today.

Kindergarten and first grade students must bring a birth or baptism certificate showing their age, at the time of registration. Minimum age requirement for entering kindergarten is 4½, and for the first grade it is 5½, as of Sept. 1. Parents are asked to attend with their children to assist in the registration.

There will be no classes for the newly-registered students on Monday, and they may leave as soon as registrations are completed, but their regular classes will begin Tuesday. Other students will have a full day on Monday, however.

Children should attend the school nearest their home with the exception of 7th and 8th graders, who all will attend McKinley.

The regular six-bus schedule will continue, with the same program as last year, Spinas said.

Some changes have been made in the "staggered hours" policy which will be initiated in kindergarten and primary grades at Garfield and Lincoln schools. Three classes at Garfield and two at Lincoln will be affected. The revised schedule starts at 9 a.m. for the first shift and continues till 2. From 1 until 2 the children in the first group will have supervised play or auditorium programs. The second group begins at 11 and will be dismissed at 4. This group will be in the auditorium from 11 till 12. The later starting hour will be better for all concerned, Spinas believes, because early winter mornings are dark, and because the busses may retain their present schedule. Spinas wished to clarify the matter of lunch hours by announcing that all children will have the same noon hour, from 12 to 1.

McKinley School this year will have a staf for approximately 75, including several new teachers.

Buckleys To Meet Demands

In order to comply with demands by city officials and petitions sent in by residents that they clean up the unsightly stacks of wrecked automobiles at the Buckley Garage on Middlefield Rd. at Dumbarton Ave., William Buckley, co-owner with his brother, Charles, announced today that they would close their garage business for at least two weeks to clear away the old cars and to send them to steel and tin factories.

County Executive Frederick Peterson two weeks ago called a meeting with Buckley and Asst. Dist. Atty. Daniel Sullivan in Judge Edward I. McAuliffe's chambers at which time he demanded that Buckley put up a fence to shut off the view from the road by this Thursday. Buckley told Peterson that he did not have enough money to put up a fence at this time, that he thought the main thing to be done now was to clear the cars away.

He said today he will write a letter to the board of supervisors telling what he hopes to do in the future, including leveling the lot, covering it with rocks, and installing a fence.

The matter came to a head last July 15, when County Engineer M. A. Grant moved a road department crane to the scene and hoisted the objectionable jalopies 60 feet to the rear.

land's population is urban.

A Philadelphia refining company recently junked old and idle equipment and obsolete plants, netting about 1,000 tons of steel for the scrap metal campaign—or enough to provide all the steel needed in the manufacture of 50 flying fortresses.

Restrictions on use of taxicabs in New York City will save 107,000,000 taxi miles annually, as well as 428,000,000 tire miles, 15,000 new tires, the same number of recaps and 10,000,000 gallons of gasoline.

JUNIOR COLLEGE: Students May Enter Naval Program

Lt. H. McPherson, officer in charge of the naval aviation training program of the 12th Naval District, said today the program has been reopened for high school graduates who are 17 years of age and not 18. Student sat San Mateo Junior College who maintain a scholastic standing in the upper two-thirds of their class may enlist and remain in college until the close of the semester during which they may become 18 years of age.

"We are delighted that San Mateo Junior College has been again designated as a school in which the Naval Aviation Trainees may carry on accredited work, for we are advised that there is great need for high quality trainees in this field of service," said C. S. Morris, president of the college.

Registration at the college will take place Sept. 13, at 9 a.m.

R.C. Incident Drill Meets Few Troubles

A few difficulties were encountered at the control center in this week's civilian defense drill, Mayor Floyd D. Granger said today. On the whole, however, Granger said, the drill went off fairly smoothly.

One member of the first aid squad said they were provided to take care of eight casualties but only treated two. At one incident where the crew were to pick up disaster victims, the "casualties" were eating dinner and would not appear to be treated.

It is a punishable offense to waste food or paper in Britain.
